Information Disclosure Statement

The information disclosure statement filed April 17, 2004 fails to comply with 37 CFR 1.98(a)(1), which requires the following: (1) a list of all patents, publications, applications, or other information submitted for consideration by the Office; (2) *U.S. patents and U.S. patent application publications listed in a section separately from citations of other documents*; (3) *the application number of the application in which the information disclosure statement is being submitted on each page of the list*; (4) *a column that provides a blank space next to each document to be considered, for the examiner's initials*; and (5) a heading that clearly indicates that the list is an information disclosure statement.

MPEP Section 609.02 states:

The examiner will consider information which has been considered by the Office in a parent application when examining (A) a continuation application filed under 37 CFR 1.53(b) (B) a divisional application filed under 37 CFR 1.53(b) or (C) a continuation-in-part application filed under 37 CFR 1.53(b). A listing of the information need not be resubmitted in the continuing application unless the applicant desires the information to be printed on the patent.

Thus, the information disclosure statement *has been considered* in accordance with MPEP section 609.02. However, as noted above, “[a] listing of the information need not be resubmitted in the continuing application unless the applicant desires the information to be printed on the patent.” Moreover, the MPEP in Section 609.02 further goes on to state:

If resubmitting a listing of the information, applicant should submit a new listing that complies with the format requirements in 37 CFR 1.98(a)(1). Applicants are strongly discouraged from submitting a list that includes copies of PTO/SB/08 (PTO-1449) or PTO-892 forms from other applications. A completed PTO/SB/08 or PTO-1449 form from another application may already have initials of an

Art Unit: 2652

examiner and the application number of another application. This information will likely confuse the record. Furthermore, when the spaces provided on the form have initials of an examiner, there are no spaces available next to the documents listed for the examiner of the subsequent application to provide his or her initials, and the previously relevant initials may be erroneously construed as being applied for the current application.

Thus, the contents of the Information Disclosure Statement filed on April 17, 2004 have been considered, however, since the listing submitted on April 17, 2004 is not a proper listing in accordance with 37 CFR 1.98(a)(1) as noted, *supra*, the information contained in the IDS submitted on April 14, 2004 will NOT appear in the issued patent.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William J. Klimowicz whose telephone number is (571) 272-7577. The examiner can normally be reached on Monday-Thursday (6:30AM-5:00PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, A. L. Wellington can be reached on (571) 272-4483. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
